

## **Information on the coronavirus from the state government of Saxony-Anhalt**

### **Contact restrictions**

**Status: 06.04.2020**

- Almost 1,000 people in Saxony-Anhalt are infected with the coronavirus. Due to the prevailing transmission route, e. g. by coughing, sneezing, person-to-person transmission may occur. The alarming situation in other countries of the European Union shows that the issue is very serious. and that life and death are at stake. Our goal must be to flatten significantly the infection curve. It is therefore required that each and every one limit their direct contacts to what is absolutely necessary.
- Staying in the open air alone, with family members, or with another person who is not living in the same household is permitted. The way to work, shopping, doctor visits, participation in meetings, necessary appointments and exams, help for others and sports and exercise in the fresh air as well as other absolutely essential activities remain possible.
- Wherever possible, maintain a minimum distance of 1.5 meters from other people in public.
- Groups of people celebrating in public places, but also in apartments are prohibited. Picnics and barbecues in public places are also not allowed.
- The measures apply until 19.04.2020.
- Stay healthy!
