Schools

Grammar schools, comprehensive/community/secondary schools

In Magdeburg, the capital of the federal state of Saxony-Anhalt, there are grammar schools, comprehensive schools, secondary schools and community schools available to pupils after they have attended primary school. For the municipal grammar schools, comprehensive schools, community and secondary schools, the school catchment area is the city of Magdeburg according to the current legal situation, i.e. a pupil from Magdeburg can choose one of the schools. He or she has a legal claim against the city of Magdeburg.

The student is entitled to a place at a grammar school, a comprehensive school, a secondary school or a community school, but not at a specific school of the chosen course of education and only within the framework of the specified admission capacity. The application for admission to a grammar school/comprehensive school/community school/secondary school is made by filling in the following form: "School career declaration", which the pupils will receive with their 4th grade half-year report at

Primary School. Please enter your first choice and a substitute choice. For many years now, a lottery procedure has had to be carried out as a means of admission due to overcapacity. In a lottery procedure, only first-time applicants are considered. Foreign students (students with their main place of residence outside Magdeburg) should always contact the school provider responsible for their place of residence (administration of the district).

Secondary/Grammar Schools: Public Schools

The following municipal grammar schools, comprehensive schools, community schools and secondary schools in Magdeburg are available:

Grammar school

Hint:

Parents who wish to enrol their child in a school with a special focus must register their child for the aptitude test at the respective school (usually by mid-January of the year of enrolment).

Your child will be invited to the aptitude test and, depending on the result, will receive an admission or rejection decision from the school. In the latter case, the assignment will be made according to the

The student may be admitted to any other school which has a free place. The Ministry of Education publishes the schedule for admission to secondary schools annually. **The** school you are currently attending will inform you in good time.

Second-chance schools

IGS „Willy Brandt

IGS "Regine Hildebrandt

Note for foreign students:

Students who wish to move out of Magdeburg (all students who do not have their main place of residence in Magdeburg with their legal guardians or who wish to move in before the start of the school year) should submit an informal application to the school provider,

which is responsible for their main place of residence.

Since the districts outside of Magdeburg do not have this type of school, the schooling in Magdeburg is approved. The admission of a foreign student can take place if there is still admission capacity for foreign students after the Magdeburg students have been admitted.

Community schools

Community schools are established through the conversion of an existing school, starting with grade 5 and growing in the following school years. Enrolment takes place exclusively via the "Schullaufbahnerklärung" (school career declaration).

In the city of Magdeburg, all secondary schools have been converted into community schools.

The sports school is the only municipal secondary school. In the community schools, pupils are taught from the 5th school year onwards.

It enables the acquisition of all general school-leaving certificates.

To this end, the community school runs a grammar school path or makes it possible to obtain the Abitur in binding cooperation with another school.

Hint:

Independent schools work alongside public schools in fulfilling the educational mandate within the framework of Article 28 of the States' Constitution

and Article 7 of the Basic Law. The registration of the child takes place through the parents directly at the school of

your choice. Please ask for the dates and conditions at the respective school.
